

**Sight Unseen** : 'Week of April 18, 2016', by Jill singer, April 23rd, 2016

*A weekly Saturday recap to share with you our favorite links, discoveries, exhibitions, and more from the past seven days. This week, a massive art chaser to counteract the design hangover we've had ever since Milan: new exhibitions by SU faves like Naomi Clark, Lily Stockman, Brent Wadden, Carol Bove, Kate Steciw, and more. (Plus: the amazing golden Stabile chair by Barcelonan designer Max Enrich, above, because we couldn't resist!)*

Almine Rech is another gallery participating in Independent Brussels this weekend, but back at home in their Paris outpost is a stellar new exhibition by Canadian artist Brent Wadden, whose woven geometric paintings never fail to inspire.
