Wes Lang "The Studio" Exhibition @ ARoS Museum Preview

Known for his tattoo-inspired paintings and abstract sketches, Wes Lang is set to exhibit at Denmark's ARoS museum in Aarhus. Titled "The Studio," the retrospective show will present 60 works both old and new from Lang's dynamic career thus far, including collaborations with Harley Davidson and Rolex alongside projects with iconic musicians like Kanye West and The Grateful Dead. "The Studio" will present itself as a recreation of Lang's actual studio in Los Angeles and features many of his sketches, furnitures and quirky ornaments — transforming the space into Lang's hub of creativity. "The Studio" will take place from March 29 to September 7, stay tuned for more information from ARoS.
