‘Invisible Sun’

May 26 — Oct 3, 2021 | The Broad, Los Angeles, CA

Developed amid the COVID-19 pandemic and the groundswell of demands for social justice and racial equity, ‘Invisible Sun’ featured artworks that resonate with this unprecedented period of rupture and unrest. The works on view speak to profound transitions, both personal and global—including the aids crisis, gender and race-based violence, unchecked capitalism, and colonialism’s aftermath—and form an appeal for healing.
