Tsherin Sherpa
Different Worlds

Jan 20 — Apr 28, 2024 | SVMA Sonoma Valley Museum of Art, Sonoma, CA, US

The Sonoma Valley Museum of Art (SVMA) is pleased to announce the opening of 'Tsherin Sherpa: Different Worlds', running January 20 through April 28, 2024.

'Tsherin Sherpa: Different Worlds' presents the captivating artworks of Tsherin Sherpa, a globally renowned contemporary artist. Born in Kathmandu, Nepal, Tsherin Sherpa emigrated to the San Francisco Bay Area in 1998. The artist's work is grounded in his personal experiences within the Himalayan Diaspora and his rigorous training as a Thangka painter (traditional Buddhist art).

Upon relocating to the United States, Sherpa encountered new artistic influences, which led him to develop a distinctive artistic practice that seamlessly blends his traditional upbringing with contemporary perspectives.

"Tsherin Sherpa's work is an extraordinary synthesis of traditional Himalayan culture and practices, and cutting-edge contemporary art, which makes for a unique and inspiring exhibition. His work bridges continents and cultures," says Linda Keaton, executive director.

"We hope the Bay Area community enjoys this very special opportunity to experience the work of this globally renowned artist."

This exhibition is organized by the Monterey Museum of Art.
